

I am a listener to KLOVE & would not like a replacement station to take it's place. The music has a positive impact on teens, giving them hope & encouragement. Young children can hear positive music without the inappropriateness that other stations broadcast. A community can hear christian music on KLOVE that is upbeat & tuned into the younger generation. Prayer is a wonderful service offered by KLOVE giving hope to people in times when there may seem to be no one there to listen to them. I highly value the service provided by KLOVE & would like to see KLOVE continue to serve the community by staying on the air.
